New Phases in an Extended Hubbard Model Explicitly Including Atomic Probabilities
[Phys. Rev. Lett. 75, 4658 (1995)]

J. van den Brink, M. B. J. Meinders, J. Lorenzana, R. Eder, and G. A. Sawatzky

Figure 2 was incorrectly printed. The correct figure appears below.

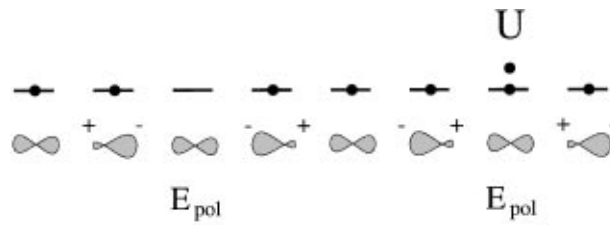

FIG. 2. Schematical representation of the excited SDW state. The charge excitation defining the effective Coulomb repulsion U and induced polarizations are indicated.
